MISSION

It is the purpose of Ultimate Care to provide a higher level of personal care than traditional alternatives. Our NUMBER ONE priority is the individualized, high quality care for your loved one! Our home setting and limited number of residents alleviates the stress and anxiety, common in large care facilities.

Our goal is to provide professional and loving care, while striving to fulfill the mental, physical, and spiritual needs of each of our residents. Our mission is to provide care to each resident with the utmost dignity and respect.

LICENSED ASSISTED LIVING HOMES

We understand that not all of our residents require the same care, which is why we provide customized assistance ranging from minimal to total care. We can assist them with bathing, dressing, grooming, and incontinent care. Our trained staff are loving and experienced caregivers who are always close at hand and available 24hrs a day to assist with any of our residents' needs. Additionally, there are nurses, physicians, and specialists such as Physical, Speech, and Occupational Therapists who are available through Home Health Agencies.

Ultimate Care offers 3 beautiful homes, each licensed by the Texas Health and Human Services for 6 residents, providing our residents with an impeccable service of 1 to 6 ratio. Our residents enjoy well balanced home cooked meals, snacks and lots of baked goodies! Individual laundry services are also included in our program. Our facilities are monitored with 24 hour security systems.

We serve throughout Spring and The Woodlands areas.
